

Required Documents – License for Podiatry

Below you can find the required documents for obtaining a medical license in Israel (as appears on the ministry of health's website)

- 1 passport photo**
- Photocopy of an **Israeli identity card**, including the address slip and statement of status in Israel (citizen or resident). If the status in Israel is not specified on the identity card, please send a copy of an Israeli passport or confirmation from the Interior Ministry on the applicant's status in Israel (if you don't have it yet, a copy of your current passport).
- Questionnaire for Health Care Professionals
- [An application form for conducting supervised podiatric / surgical podiatric work](#) (Hebrew)
- A final Certificate/Diploma of podiatry / surgical podiatry and the curriculum
- A formal confirmation for the date of the studies commencement and of the graduation.
- An original status recognition certification – to those previously holding a status recognition certification by the Ministry of health
- A confirmation of occupation abroad in the profession for a duration of at least two years in [all operations](#) (Hebrew), under license.
- Those applying for a **surgical podiatry certificate of profession** must also attach a confirmation of practical training for a duration of two years, in the country in which they have completed the studies of that profession.
- Professional integrity certificate** (letter of good standing) by the competent authorities from the applicant's origin country, confirming that there were no disciplinary, malpractice or medical ethics complaints against the applicant. To be mail directly from the medical board of the state in which you are licensed in to the Israeli ministry of health. **To be mail directly from the medical board of the state in which you are licensed to the Israeli Ministry of Health.**
